It depends very much on the implementation phase, if you will enjoy working with your SAP system...

emphetaion offers solutions. Technical expertise is not the main focus. Our major strengths are above all a well-thought-out concept and the best possible implementation of your business processes.

We offer support in every step of your implementation project:

- Project preparation
  - business process analyse
  - feasibility studies
  - cost determination
- Design and solution concept - together with our clients
- Project performance
  - technical implementation (customizing, programming)
  - project management
  - project controlling
- Training
- Project documentation
